

Let's start your adventure  
with EXTRA.TOUCH today!

# Flatoons™

Flatoons Ver 1.0

Flatoons is an interactive content with a censoring technology,  
a depth-censoring camera, and project mapping\*.

\* Capable of outputting not only projectors but also digital signage display and  
ordinary monitors.

EXTRA.TOUCH①

It is simple but profound content!

It looks simple to communicate with digital characters, but it is very exciting experience to see responses from digital characters by your actions. Because of the simplicity, it can match with various types of events and we can provide the best match for you. Our high graphical technology will certainly help to aim for the best contents.

EXTRA.TOUCH②

It can be fully customized.

From character design through UI, 2D-3D, graphics, background, items, sounds, service, # of players, and play hours, we can customize everything in basis. If you already have characters, it will be easier to develop original contents.

EXTRA.TOUCH③

Human-sized characters.

Experience a breathtakingly exciting moment as you can communicate with human-sized characters, that would make you feel playing in a virtual reality. For projector mapping, signage, and others, many output types can be provided and your extra space will transition to an interactive space immediately.
